

Furnishing the Miracle!

Did you know that **women and children** are the fastest growing demographic in the homeless population today? This statistic has been the same for the past 10 years and is a sad reality [here in Yuma County](#).

With a very old house for a shelter and the ever increasing need for more room, Crossroads Mission embarked on the project for a new family shelter. This new shelter will accommodate up to 100 people. It will bring our community to the forefront in services offered to the homeless women and children, families, and parents in recovery. As the second facility of its kind in Arizona that allows children to stay at the shelter during their parent's recovery program, we look forward to savings to our community resources as well as benefiting from the positive impact of keeping families together.

We need your help to furnish the new building!

Please be a part of the "Constructing Miracles" campaign. You can make a real difference by donating towards the purchase of furniture for one or several bedrooms. There are 16 bedrooms that will sleep two, four, or six people; and six dorm rooms that can accommodate up to 8 people each. Naming opportunities are available when you furnish an entire room!
